

Cigarette Butt Litter **Reduction** Checklist Offices & Corporate Facilities

As our society has become more waste and energy conscious, Businesses, Govt Depts and Organizations have made significant improvements in recycling practices, waste reduction and energy efficiency to minimize their impact on the environment.

However, until recently, cigarette butt litter, the world's largest environmental litter problem, has not received the same degree of attention. Cigarette butt litter outside buildings, and scattered by the billions across our cities and countryside has increased considerably since the introduction of indoor & vehicular smoking bans, and this litter rapidly enters our storm-water and aquatic systems - poisoning our environment, degrading its beauty and taking years to break down.

Cigarette butt litter at corporate facilities is primarily created by industry staff & employees, and to a lesser extent by visitors, customers & contractors. They're the only ones who can actually reduce the problem of butt litter, but they need help to do it. Appropriate butt disposal is even more crucial because cigarette butt litter creates more cigarette butt litter. Research proves that an adequate butt litter disposal infrastructure can often virtually eliminate the problem.

Butt litter responsibility provides the means for responsible business owners and Management to assess their efforts to provide adequate education and disposal infrastructure in order to reduce the cigarette butt litter emanating from their business activities, whilst simultaneously promoting the highest standards of environmentally responsible trading.
